Holiday Eco-Challenge

Dear Children and Willing Adults

Our holiday eco-challenge is called: **'LET'S EMBRACE OUR HOMETOWN-LOCAL LANDMARK ART'**

Can you think of any creative ideas to **recreate a local landmark** using **natural or recycled materials**?

Here are some that I thought of, but I'm sure that you can come up with much better ideas than me!

- Maybe you could use twigs and sticks to make a windmill
- Or, sand, shells, netting to create a beach scene
- Recycled bottles and boxes to create a shop or church
- Lollipop sticks, or driftwood to create a beach hut
- Collage mixed media painting of a local beauty spot

Hopefully the weather will be kind to us and you'll be able to get out and about in the countryside, town or beach on the lookout for just the right materials for your project. Do remember to think about your own and others' safety when collecting and exploring!

Don't forget to put your name and class on your creation and return it to school by **Wednesday 24th**

February 2016. If it's too big or fragile to move, how about taking photos and writing about what you did?

Adults, please join in the fun too!

We have discussed some ideas in our Assembly this week, but if you need some more inspiration, here are some pictures for a starting point....

I look forward to seeing your creative ideas.
Have a happy holiday!

Mrs L King

Eco Committee Lead Teacher
