Head of School: Mr M Ashley-Jones

Dear Children and Adults

## Holiday Eco-Challenge

Hopefully we will have some good weather over the holiday, so I thought that our eco-challenge this term could involve getting out and enjoying the great outdoors.

Can you plant seeds to **grow your own fruit or veg?**

Maybe you could grow some fruit for you to enjoy as a healthy snack or some veg that you could use as part of a family meal once they have grown? If you are able to, maybe you could even build a small vegetable patch? Remember to ask a grown-up for permission, and help. It would be great for the whole family to take part in the challenge!

There will be no deadline for this challenge, I would just love to see photos, drawings or a diary of your chosen food item as they grow. Bring them in over the first couple of weeks of next term and they can be added to our **display**. You could even bring in photos of you enjoying eating your home grown food! Or even bring in your little pots of planted treasure to share in your class.

As ever, I really look forward to seeing what it is that you produce and evidence of the growing process!

Happy planting!

Yours sincerely

*L King*
