Oyster Bay Nursery & Oysters SRP (ASD)

Executive Headteacher: Ms D J Hines

Head of School: Mr M Ashley-Jones

Year 3 Design & Technology Task

Dear Parents & Carers

This term, as part of our Survival at Sea topic, we will be designing and constructing a life vest. We have been investigating materials and have a list of re-cycled materials we need to gather. Please could you search your re-cycle bins and send in any of the items listed below for the children to use in this project.

Materials: empty plastic bottles with lids, polystyrene, bubble wrap, plastic boxes (food trays), cork, foam, masking tape, fabric tapes, rope, string, webbing plus anything that would float in water!

We will begin this designing project in the week beginning the Monday 3rd October, but please feel free to send in items as they become available. Many thanks

Year 3 Team
